Napa Valley is a remarkable destination, and with this lot your navigation around its hills, mountains and valleys can be just as exceptional. The Napa Valley Car Club offers access to a fleet of high-performance vehicles for exploring Napa Valley, and the winning bidder of this lot will enjoy not only access to four exotic automobiles, but a customized daylong driving experience for exploring the region's exceptional wine and food.

You'll arrive at Stanly Ranch in the morning, where you'll start your day with "cars and coffee" and a vehicle tutorial. Then it's time to hit the road in your dream cars for the day—such as a Ferrari, a Lamborghini, or a McLaren—to enjoy your customized wine country itinerary along a driving route tailored to highlight the performance of these exotic vehicles.

Your first stop will be at Memento Mori for a private tasting and lunch with owner Hayes Drumwright. Memento Mori wines' elegance, power and longevity result in beautifully balanced wines that are approachable in their youth, but have enough structure to cellar long term. Produced in limited quantities, they are available only via allocation.

After that, you will take the scenic route back to The Fifth Avenue Club Napa Valley by Saks Fifth Avenue at Stanly Ranch. Here you'll be treated to bubbles and your own private, luxury shopping experience especially curated for you by the Saks' stylist team.

Finally, it's time to jump back in your cars one last time to drive up to PRESS in St. Helena for your wine paired dinner. While drawing inspiration from around the globe, the PRESS culinary team stays rooted in the style and ingredients that make the Napa Valley so special. And, you can enjoy the evening toasting to stories of your day without worrying about your drive home. When you're ready to call it a night, the team from Symbolic Luxury Services will whisk you away in your Rolls Royce chariot.

A lot that is as much about the journey as the destination.
